

# GE Centricity EMR and Centricity Practice Solution EMR Applications Specialist Certification Process

The Application Specialist Certification Process is designed for clients who wish to develop in house expertise on the Centricity Practice Solution EMR (SQL) and/or Centricity EMR (Oracle) Software in order to deliver in house training/ support.

The **Certification Process** requires:

- Online Course Registration at <http://cpstraining-gehc.com/joomla/>
- Attend pre scheduled Coach Check Points with assigned Mentor
- Completion of Certification Level Courses and Tutorials (upon which Certificate is granted)
- On the Job Utilization of the Software
- Participation in Online Training Center (OTC/ Angel) Modules and Collaboration
- Continued Knowledge Share/Collaboration for Implementations and Upgrades through the OTC

## Coach Check Points

Once your registration is processed, you will be assigned a Mentor and a log on and password for access to the Online Training Center (OTC/ Angel). Your Mentor will be available by teleconference to answer questions on the course content, guide you through the initial process, and provide additional learning opportunities. Two Mandatory Meetings will be pre-scheduled upon the beginning of the Program, and at the completion of Tutorials. You will be able to reach out to your mentor via email as needed and request additional meeting times.

The following **Certification Level Tutorials** are required to be completed with a passing score of 90%:

- Centricity Practice Solution EMR Overview\*
- Centricity Practice Solution Chart Desktop\*
- Centricity Practice Solution Chart Navigation\*
- Centricity Practice Solution Chart Updates\*
- Centricity Practice Solution Chart Clinical List Updates\*
- Centricity Practice Solution Chart Advanced Tools\*
- CCC Forms Part I: Cardiology, Dermatology, General Surgery, Orthopedic Specialties
- CCC Forms Part II: Pulmonology, Endocrinology, Internal Medicine, Urology
- CCC Forms Part III: Primary Care, Women's Health and Peds

\* These tutorials are also available as a 3 day Instructor Led Course CPS EMR Functionality (EMR 101). An additional cost of \$2660.00 applies. A Test Out Option is also available for these courses, as well as CPS EMR/ Chart Module Set Up for a flat rate of \$500 per candidate.

The following **Certification Level Courses** are required to be completed with a passing score of 90%:

- CPS EMR/Chart Module Setup (EMR 102)
- EMR Decisions and Workflows **OR** EMR Manager's Course

After completing the courses, you will have continued access to the **Online Training Center (OTC/Angel)** where you can collaborate on best practices, and complete tutorials on New Software Releases during the period of your certification.

**Maintaining Certification** is accomplished through posting of White Papers and Completion of Self Paced Tutorials on New Software Releases for the current year.

Tutorial/Course Descriptions and Objectives as well as Test Out Requests can be found at <http://cpstraining-gehc.com/joomla/>. If you have purchased the package, please enter your Sales Order Number during your registration. If you are seeking Test Out Options you will need to purchase the other components of Certification (Courses, Check points, Client Assessment, and OTC Access) separately.

Initial Certification is sold as a package **PN 2035475-001. Total Package Cost \$6000.00**

This includes:

- One Year Access Fee to the OTC and all Self Paced Tutorials
- CPS EMR/Chart Module Setup (EMR 102)
- EMR Decisions and Workflows **OR** EMR Manager's Course

CPS EMR Functionality Course and Test Out Options are priced separately and not included in the Initial Certification Package Cost.

Maintaining Certification requires a minimal fee for Online Access \$199 per subsequent year.

Open Annual Access to Tutorial Libraries can be purchased to train other staff and clients (PN: 2041028-001) \$3,000.00
