

Analytics Workshop

*Analyze with
Excel 2007!*

The Analytics 2 day workshop is designed to provide Centricity Analytics users a hands-on opportunity to review concepts and functionality of the Analytics product. The course will also provide attendees ample opportunity to engage in exercises utilizing many of the dimensions and measures, and views available in the product.

Objectives:

- Overview of Centricity Analytics Data model
- Quality time performing exercises hands-on
- Instruction on Excel 2007 formulas
- Tips and tricks for more efficient and powerful Analytics reports
- Using Charts and Graphs

Who Should Attend

Administrators, Billing Managers,
and Supervisors using Centricity Practice Solutions PM
